

**Resolution submitted by:** First Name Last Name A & First Name Last Name B

## Sample Resolution

*JEF Europe,*

Reminding that perambulatory clauses are unnumbered and separated from each other by commas, as presented here,

Noting that these clauses explain why the topic is important as well as mention relevant other documents and background knowledge, and as such have great importance for the resolution,

Taking notice of JEF active resolutions here will give you extra points,

Further noting that the resolution's operative clauses are about to start,

1. Decides that all operative clauses shall be numbered;
2. Affirms that operative clauses are the heart of a resolution and must be written with great care and together form one coherent whole;
3. Further decides that all operative clauses are separated by semicolons, such as here;
4. Deplores the fact that so many persons, but not you, do not know how to:
  - a. Properly number sub-clauses in the operative clauses section, using lowercase latin letters,
  - b. Properly separate sub-clauses using commas, and only the semicolon for the last subclause in a list of subclauses, such as here;
5. Utterly condemns resolutions that use a full stop anywhere but in the last operative clause;
6. Looks forward to all of you participating to the yes Resolution Contest;
7. Wishes you all good luck;
8. Remains at your disposal should you have any questions regarding the yes Resolution Contest.
